ESPRITE™

Robe, the recognised leader in moving light technology, has made another major leap in innovation. The new ESPRITE™ LED automated luminaire has a fast-change, low-cost, transferable light engine ingeniously solving the problem of performance longevity for those preferring the higher brightness of white source LEDs as an obvious replacement for their aging stock of discharge workhorses.

Light source

TE™ 650W White LED TRANSFERABLE FNGINF

Light output

up to 27.000 lm, 85.000 lx @5m, Cpulse[™] special flicker free management for HD and UHD cameras, ready for 8K and 16K

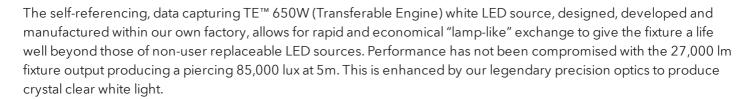

Zoom range

5.5° - 50°

Effects

Static and rotating gobo wheel, Animation wheel, Framing shutters, Prism

The comprehensive feature set includes: Flat field CMY mixing; variable CTO, two fast colour wheels; one indexable and rotatable gobo wheel; a fixed gobo wheel CTO filters; 6-facet rotating prism; 1° soft edge and 5° wash type frosts; an animation wheel and spectacular multi-colour effects.

Quick, accurate, easy framing is provided via our patented fast framing shutter module with individual blade control and +/-60° rotation capability for extra fine control.

ESPRITE™ by design removes any airflow over the optics, resulting in reduced residue deposits thus extending periods between cleaning.

Furthermore, the optional unique Hot-Spot feature allows you to move from a flat field beam to a 6:1 ratio hot-spot beam giving uniform intensity when overlaying beam edges to create smooth washes of light; Cpulse™ flicker free management system for the latest cameras and our L3™ Low Light Linearity dimming for ultra-smooth fade to black for specific integration into traditional lighting rigg.
